What is Child Abuse?

ABUSE can take any of the following forms:

- ☹️ **Neglect:** the persistent or significant neglect of a child, or the failure to protect a child from exposure to any kind of danger, including cold or starvation, or persistent failure to carry out important aspects of care, resulting in the significant impairment of the child's health or development.
- ☹️ **Physical:** physical injury to a child, whether deliberately inflicted or knowingly not prevented.
- ☹️ **Sexual:** the sexual exploitation of a child or young person for an adult's or another young person's own sexual gratification; the involvement of children or young people in sexual activities of any kind (including grooming, exposure to pornography, trafficking) which they do not understand, to which they are unable to give informed consent or that violate normal family roles.
- ☹️ **Emotional:** persistent or significant emotional ill-treatment or rejection, resulting in severe adverse effects on the emotional, physical and/or behavioural development of a child.
